

## Pfaender – Our local mountain on Lake Constance

The Pfaender (1064 m), with its unparalleled view of Lake Constance, Germany, Austria, Switzerland, and 240 peaks of the Alps, is the most famous lookout point of the region.

Two observation platforms on the Pfaender provide information about the lake region and the peaks of the Alps.

Whether you hike, bicycle, explore the alpine wildlife park, or simply enjoy the view on the terrace of the restaurant, your day on the Pfaender will become an unforgettable experience.

### The Pfaender Alpine Wildlife Park

A special attraction for the whole family: The most magnificent specimens of our native wild animals live in the spacious alpine wildlife park next to the top cable car station – learn about their behavior in their natural environment. Admission is free.

On a 30-minute circular hiking trail with an educational nature trail that provides information about the fauna and flora, you will see Alpine ibexes, red deer, wild boar, mouflons, and marmots. Please note that the trail includes a steep passage.

Children especially love the small animal enclosure with dwarf goats, rabbits, and potbellied pigs. Next to the alpine wildlife park is a large playground with the longest alpine slide in Vorarlberg, basket swings, rocking characters, and jungle gyms.
